

Skunk Antidote

From Popular Science, August 1995

Keep the following ingredients, unmixed, on hand. Mix only when you need it and immediately dispose of any unused mixture because the hydrogen peroxide with baking soda might break any glass container it was stored in!

Mix the following in a bowl:

1 quart 3% hydrogen peroxide

1/4th cup baking soda

1 teaspoon liquid soap

Bathe the pet in the solution and then apply a tap water rinse.

Caution!!! Flush remainder of unused liquid down drain!
