Subject: A note about Whako...

Happened across your website and saw your page about Whako, AKA Blaze of Dryslwyn.... Just wanted to let you know, Whako didn't die in 2009. I acquired him in June of 2005 from Ralph Leonard, and he has been a wonderful companion dog ever since. He's getting pretty feeble, doesn't hear, and doesn't see very well, but he continues to be the best dog I have ever known (and that's saying a lot... :) He probably won't be around for too much longer, but will get the best care in his old age that can be had. He has had a long and very happy life.

Thanks,
Chris Klay
